

introducing **Dejine Records** first compilation album

featuring breakthrough Electronika, Underground and Hip-Hop artists from around the world

Introducing the debut compilation album from the Dejine:Rec label, based in Aichi, Japan (*which has the third largest economy in Japan*). The Dejine:Rec collective **HELEC**; **Xiangxing**, **H.honda** and **Toshee** have brought together both domestic and international artists for this release. Participating artists are all interested in the concept of dejine. **Authentic**, based in the U.S. but originally from Japan, combines with MCs from U.S. hip-hop collective Dreadnots to get the album rolling. He has recently released his second album, design for this being completed by **HELEC** members **Toshee** and **Imako**. The toast of the Sendai live scene - half Dutch, half Japanese **Timmo** is a member of Team Doyobi (*Skam*). He has a peculiar 'pop' sound, creating abstract worlds for the listener. Post-electronica is created in foreign countries and brought together in Scotland by experimental collective **Savage Sound System**. Their sound has elements of dub, noise and hip-hop. Similarly, **Sacre Noir**, solo project of sometime female vocalist with the sSs. Her sound

blends lo-fi ambience with layered vocals. Instrumental 'Actual Escape' by Xiangxing was used by **Seth Walter** to create 'Stream of Consciousness.' He supplies an eclectic mix of rap and poetry to great effect. **Hors Concours** from Germany is an electronic creator. **Seph** produces dope, abstract hip-hop from Philadelphia, USA, as does headz creator **Asthmatic Astronaut** from Scotland. **Lone** of the UK creates psychedelic, down-tempo sounds. **Cyclus** from Eindhoven, The Netherlands combines breakbeats and electronica. **Orchard Road** create experimental, dark down-tempo from Amsterdam, The Netherlands and Venice, Italy. Also based in Venice, Italy, **!THE S.A.D-DJ!** has an expert skill of electronica and creates sonic destruction. Electronic hip-hop artist **D.Soul the soulsamurai**, based in Vancouver, Canada, brings the compilation to a close on a note of hope and light.
